

Bathrooms

For wiping down bathrooms, it's preferred that the "C-Fold" bathroom paper towels **are not** used as they're not as effective. Use a roll of paper towels. The following bullet points have been listed in the suggested order of completion. The list is open to suggestions from those completing the tasks. Most materials needed will be in the closet right across from Castle. *Tasks specific to this week have been italicized.*

- **Priority item:** Take down all shower curtains (just those on the second floor) and stick in the washer, then dryer. Default machine settings with a bit of bleach in the upper-left tray. Any clothes in the way can go in hampers (if from dryer) or in the dryer (if from the washer).
- Simple Green all sinks
- Windex all mirrors (don't worry about the upstairs bathroom for this)
- Toilets
 - Clean all toilets - includes ALL porcelain and handles, not just the bowl
 - Pour some toilet cleaner around the inner rim and inside the water and use toilet brush to scrub
 - Simple Green seat and all outer porcelain
- Urinals
 - Scrub all urinals with Simple Green - includes ALL porcelain, pipes, and flushers, not just the urinal.
 - **Replace urinal cakes if necessary**
 - Simple Green headrests
 - **Simple Green dividers**
- Restock hand towels, toilet paper (at least 3 rolls per toilet) **neatly**, and hand soap if necessary
 - Hand soap can be found under microwaves, hand towels and toilet paper in the very back of pantry
- Sweep and mop all floors; be sure to add a shot of bleach (~1 second)
 - Use 18" broom or small kitchen broom
 - Fill up mop bucket via handicapped shower and dispose of water via toilet when done
- Take out trash and replace bag
- **Showers (Alright this part is fucking important, scrub the shit out of the showers** Scrub all showers (including the basement shower) using a hand scrubbing brush and some Scrubbing Bubbles Foaming Bleach
 - **It is important that you get in all the cracks and really scrub the grout so that it's a cleaner white than when you started**
 - Once finished, rinse well with water. It might be necessary to use the shower head from the handicapped shower to spray other showers
 - **Along the edge of the showers (also outside) look for any black/brown/green and scrub the shit out of it. Use steel wool if necessary.**
- Clean off shower bench, put stuff on stage if necessary
 - Loose caddies can go under the cubbies
 - Loose shampoos can go above the cubbies
- Replace shower curtains when finished

Be sure to do the 2nd floor bathroom, the 1st floor men's and women's bathrooms, and basement bathrooms (including the shower).
